Comments/TA Provided:

Walk through of the new building located at 3919 Central Avenue. There is a 4 foot climbing structure - licensor will look into how much surfacing is needed for this equipment. Licensor will look into whether or not the menu needs to be posted or just sent to parents. There will be no furniture in the classrooms that are inaccessible to children. All sink/counter pieces in every classroom measure 2' x 4.5'. Discussed gross motor room - 75 square feet per child. Brick edges along need to be covered. L shaped rooms with pillars in the middle of the rooms need the edges covered. Bottom of the window in the L shaped rooms need sharp edges covered. Licensor will send rules change tracker. Send pictures once building is ready.
