Comments/TA Provided:

required unannounced visit completed this date. Viewed and updated staff records. Kristie has a sub that hasn't completed CPR/FA, but due to COVID, Kristie is not having her work as she doesn't want her to be exposed. Children are outside playing. There are 13 children (3-4 year olds) present 4 staff, Lisa, Kim Janice, and Kesley with the children. Enrollment is down a little bit this year. Sanitizing is going well, and handwashing, they are changing out toys and sanitizing in between classes. Parents are being greeted at the front and are driving thru and dropping off children and they are being released at the same way. If they do have a volunteer they are temp checking and making them wear a mask. I will send you the link for the Child Care Guidelines for COVID and the most recent Central Registry screen. Please call me questions.
