There are a total of 13 children in attendance at the time of the visit with two staff members, Pat and Lucia ( 3 - 3 years old, 10 - 4/5 years old). The children are having a bike and outside play day at the time of the visit. Checked playground to ensure compliance and safety at the time of the visit. Discussed that staff qualifications for central registry and sex offender registry are due to expire in June but that the facility will just need to renew them prior to the new school year since the facility is a summer closure. Discussed that the staff has CPR/FA that is due to expire in August and might want to renew that certification prior to the new school year begins. Reviewed attendance records at the time of the visit with Pat. Reveiwed that the facility is still using visiting therapists at the facility and that is the only variance needed and on file at this time.
