Certificate #: 014842

Phone: 307-234-9187

Address: 1611 Casper Mountain Road

City: Casper

Facility Type: ___ FCCH ___ FCCC X CCC

Comments/TA Provided:

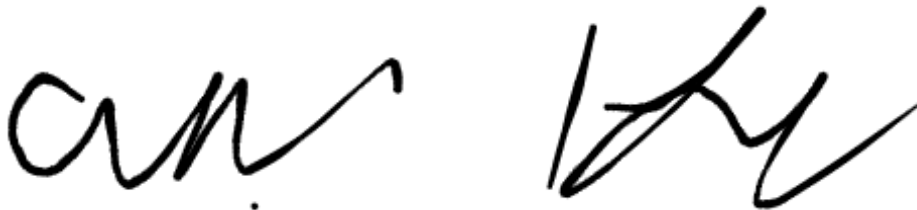

This visit is a facility visit to discuss the options for using the gymnasium as an available space for school age child care. Received CCL 100a at the time of the visit. The facility is requesting to increase the capacity by a total of 25 children. The plan for the gym space to be used as child care will be for the retractable partition to be lowered at all times separating the East end of the gym from the West end of the gym. Both doors to the weight lifting room will be closed off during child care hours and use of the gym space. The bleachers will work as a barrier to block off the far edge of the gym and extend the partition barrier. The space measurements will allow for the capacity increase of 25 children. Received health approval for use of the space but food will be stored in the kitchen space of the pre k room. The bathroom use space is in the locker rooms, both his/hers, and direct supervision is necessary as well as an annual variance approved each year. There are 7 children in attendance in the infant/ toddler room at the time of the visit with three staff members Bonnee, Leana, Insley (1 - infant, 4 - 1 years old, 2 - 2 years old). There are 9 children in attendance in the preschool room at the time of the visit with 2 staff, Tracey and Tiffany (3 - 3 years old, 6 - 4/5 years old. Licenser and director will work together to complete variance for the restroom usage.
