### Comments/TA Provided:

Amanda is not available at the facility because she is out running errands for the facility but Bonnie is at the facility at the time of the visit working as staff in the infant and toddler room. Worked with Stephanie the CEO for YMCA and communicated the visit notes with both Stephanie and Bonnie. At this time the facility has not found any concerns with using the gym space for their school age after school program but they have not used it often but happy that it is available for use when needed. The facility does allow infants and toddlers to use the approved space with the variance for indoor play space when they need it for their infants and toddlers. The facility will be working with licensing in the near future to get the drop in child watch space approved and set up for care when it is completed. There are a total of 7 children in attendance in the toddler space at the time of the visit with one staff person, Laura (7 - 2 years old). There are a total of 2 children in attendance in the infant space at the time of the visit with 1 staff person, Bonnie (2 - infants). There are a total of 14 children in attendance in the preschool room at the time of the visit with 2 staff members, Abigail and Emily (4 - 3 years old, 10 - 4/5 years old). Reviewed attendance records at the time of the visit to ensure compliance and they are all current and up to date. Licensor reviewed staff that have had central registry run for the facility and updated staff summary at the time of the visit to reflect who the staff are actually working in the child care space. Amanda was available to review the visit form and notes with licensor before the end of the visit.
