Licensers Stoney and Teddie were out to look at new space only on this date. A complete visit of current Child Care space was not completed at this time. Licensing was looking at space for bathroom use - they are working on getting the windows frosted. Gave suggestions on hanging a curtain or door hanger to cover windows until frosting is completed. You can do a capacity of 15 children in the new space. Please post the capacity and evacuation plan as well as emergency #s and plan for if there is an emergency since there is not a phone in the space. Gave suggestions on different ways to get help in an emergency. Once you have there in place, you may begin using this new space for "drop in" care as discussed. Discussed diaper changing and ideas to move the changing table for supervision and staff: child ratio purposes. Please send photos of what is decided and posted for both emergency response from this area of the facility and for privacy with the windows. Please call Stoney or Teddie with any questions or concerns. Thank You!!
