Comments/TA Provided:

This is a monitoring visit to ensure that staff have the required information/backgrounds completed and on file prior to working at the facility. Jess and Kimber were the only two working and are qualified. There were 11 children present. 3 were infants. They were in ratio. During lunch they will be out of ratio as one will need to be preparing lunch. Looked at the attendance and ratios for this week. Yesterday (12/29/2021) there were 17 children present with 2 staff. There were 5 infants, 3 1 yr olds 4 2 yr olds, 1 3 yr olds and 3-4 yr olds. There was also 1 school aged child. A minor did come in and assist during lunch. 17 children were present from 8 to approximately 4 pm when numbers went down. Discussed and explained ratios. Discussed and explained the daily schedule. Attempted to figure out a way that the ratios could have been fixed yesterday but there was not a way other than keeping a third person at the facility.
