Comments/TA Provided:

Virtual visit due to COVID-19 restrictions. At the time of the visit there were 17 kids with 3 staff ages 3-5 in the preschool. There are two rooms that are used for different activities. Kami showed licenser sanitizer bottles and stated they are used to sanitize things each evening. She stated the preschool also uses the school district's fogger a couple times per week to clean. Most of the children from the preschool transition to Tongue River Children's Place after preschool ends for lunch and the rest of the day. Kami provided video of staff records. She will update the ccl-205 when the most recent central registry and sex offender check come back.
