Comments:

Conducted sanitation inspection. TA - The provider is currently only using one bleach/water sanitizer spray for everything. Licenser recommends getting a separate sanitizer spray that could be a made between 100-200ppm for the bathroom and diaper changing are, and keep the sanitizer spray mixed at 50-100ppm for the kitchen and play area. Animal vaccinations are all current at the time of the visit - dogs good until 02/17/2022, Cats good until 05/06/2021 and will schedule an appointment to update. TA - the facility prepares food and holds it then reheats. Discussed reheating temp of 135 and checked to ensure hot thermometer works. Received current well water test dated 02/18/2021. Received request for recertification, renewal fee, copy of new updated policy statements, and a copy of the weeks menu. Discussed with provider how once her child turns 6 years of age he does not have to be considered as part of her capacity and as long as he is within sight and sound he can play in his own room during child care hours. There are 6 children in attendance at the time of the visit with one staff person, Kiana (1 - infant, 2 - 3 years old, 2 - 4 years old, 1 - 5 years old)

69. Child Records Notes

Reviewed three child records at the time of the visit and the facility has a total of 9 children enrolled at this time. The provider updates child records at the beginning of the year in January or when the children are enrolled. The provider does not administer medication for any of the children enrolled at this time and the provider does not transport at this time.

70. Staff/Volunteer Record Notes

Discussed that the provider needs to complete 2 elective credit hours for infants before renewal. Staff records and qualifications are all compliant at the time of the visit.

71. Staff Child Ratios and Supervision

All compliant at the time of the visit as stated in the general comments.
