Call to Jackie this day for a virtual visit. The visit was held by video. Visit held to follow - up on staff records. Staff records are complete. One new staff started yesterday she has background checks back, but no training so she is not yet unsupervised. The children present were all outside at the beginning of the visit. 1 infant, 1 - 1year old, 2-2 year olds, the reset 3 years and up for a total of 21 children. Three staff were supervising outside. Supervision and ratios were compliant. TA: The infant who was outside was sleeping in a bouncer. Attendance records, classrooms, and bathroom were checked. Infant beds were checked. Food service has not changed. The playground surface has been maintained by keeping rocks moved to the heavy use areas. Children are screened at the door upon arrival. Discussed hand washing including when children enter the facility. Discussed extra sanitizing. Parents are signing into the facility by scanning a bar code with their phones so they are not touching the sign in tablets. Jackie said they have been using one less class room since the COVID-19 situation since their numbers are down.
