Required unannounced visit completed this date. Discussed that she can not use her husband as staff unless he is qualified and completes staff orientation, Health and Safety training, and CPR/FA. Yesterday there was Crystalina 9, Maria 1, Maya 3, Malachai 7, Merric 6, Nalani 11. were present yesterday when licenser was at the facility yesterday and the husband was with the children. Linda has 6 children enrolled at this time. Discussed with Linda that even if she is just caring for grandchildren, because she is a licensed child care provider licensing rules are still in effect during business hours. There are 3 children present at time of visit Merric, Malachai, and Maya. Crystalina (who lives in the home) is with her husband. Linda is waiting for a return call from Carla with the City Health license as she is having issues getting onto the website. Sent Linda the link so that Linda can try to get on the website and get registered. Discussed that children can't play out front and that they need to play in the fenced in play space. If she would like them to be able to play out front she would need to request and have a variance approved. CCL-301 emailed to Linda regarding unqualified staff working with children. Please call me with any questions.
