Certificate #: 001543

Phone: 307-262-1562

Address: 211 Bar-2

City: Douglas

Facility Type: ☒ FCCH ☐ FCCC ☐ CCC

Comments/TA Provided:

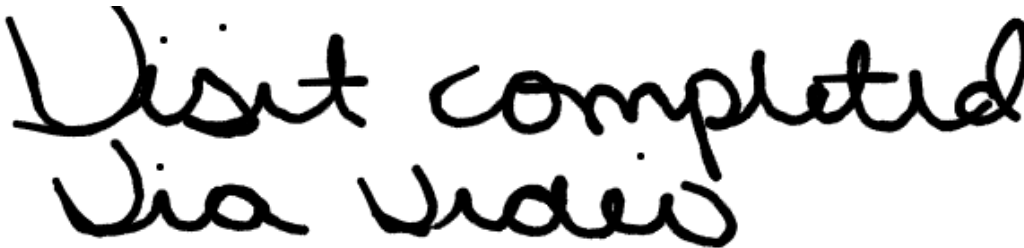

Unannounced Facetime call to Heather for unannounced visit. There are 10 children present with one staff, (Heather) Kenzie 9, Cassity 6, Josie 4, Josh 4, Knox 4, Izzy 3, Bella 2, Ellie 2, Paisley 1, and Charlie (4 months). Discussed having only 2 children under the age of 2 when she is caring for 10 children. Heather will take a new baby in a couple months but her 1 year old will turn 2 so she will still have only the 2 under 2. Heather has no new staff or household members. Heather has a 21 year old daughter that lives in Casper and Heather asked if she needed to do any fingerprints or central registry for her. We discussed that as long as she is not living in the home or working as staff Heather would not need to qualify her. Reminded Heather that Quinlynn's fingerprints expire in December and that she would need to have those redone prior to their expiration. Also, central registry screens will need to be done. Heather walked me through her facility, I was able to view the space that she is using and the children present. Heather is using a pack n play for her infant to sleep in, and is sleeping the infant flat on their back with no blankets. The infant was in a bouncer seat during the visit, the infant was awake. Discussed supervision when children under the age of 3 and using the playroom. Heather is looking at possibly adding an additional playroom which is right next to the playroom she currently uses. Discussed supervision and that if more than 2 rooms were being used by children that she would have to have staff present. There are no weapons on the premises. No changes or new equipment has been added to the outside. Discussed wearing masks with Heather, she does have a mask. Heather states that she is being very strict with symptoms and is not letting children come even if they just have a runny nose. Heather stated that she is also limiting the use of toys so that there is less items to be infected. Discussed training with Heather, explained I was not sure that the conference was going to be held this year. Heather will start working on training hours. Gave Heather the information to contact me with any questions.
