Unannounced visit completed via facetime. All children were outside playing in separate groups. At this time the facility is doing mixed-age groups and keeping sibling families together. Group 1- 7 children with 2 staff (Leslie and Shelby) ages 10 months to 4 yrs Group 2 -8 children with 2 staff (Megan and Kayleen) ages 1 yr to 7 yrs Group 3 -9 children with 1 staff (Sherry) ages 2-7 Group 4 - 6 children with 1 staff (Luna) ages 4-6 At this time they do not have any of their infants attending the program. They may start returning next week. The facility received grants as they have had to make some changes to their program due to COVID, they are looking at adding a code keypad to the other door so that they have parents using more than the one door. They are also looking at maybe fencing their playground so that they can keep their groups separate. Stephanie and I discussed that she would need 75 sq ft per child. She is looking at dividing the spaces to allow for 20 children. Right now they are still staying in groups of 10 and haven't expanded to the larger group size. They are still picking children up at the front door, or going to the cars to get children. They are still monitoring temperatures and symptoms when children arrive. They have enhanced their cleaning procedures. They are still using Brightwheel for attendance and logs for children. I was able to verify attendance and logs. Reminded Stephanie that they have a central registry coming due and to look at all staff to assure they are all within the 12-month window. Children are still bringing their lunches, they are using all disposable items so that they are not having to take items back and forth between home and the facility. The facility has not hired any new staff. Is thinking that they may have to hire some part-time staff for the summer. Thinks she may possibly use some of her substitutes that are already qualified for the program.
