Comments/TA Provided:

10 children present with Jean, 1-infant, 5-4 year olds, 3- 2 year olds, 1-3 year old. Jean was watching 9 children outside while the infant was finishing his nap inside, Jean said she checks on him every few minutes. Discussed the supervision of the 11 month old during nap time. Since the outside play yard is 1/2 a flight down the children all need to be on the same level with Jean, this will keep the awake children under 3 years of age within sight and sound at all times. The children are playing with riding toys and loving the sun and warm weather. The Licensor recommended a short fence be placed on the North side of the house to keep the children out of the area where they toys are stored, which is out of site.
