City: Glenrock

Facility Type: ___ FCCH ___ FCCC X CCC

Comments/TA Provided:

Required unannounced visit completed this date. reviewed staff record with Leighann. There are some admin staff that do not work in the facility that need central registry, and CPR/FA. I will let Nicole know so that this information can be updated. They have RSV in their facility. They have had some COVID, and staff. They did close at one time but now are being told that they do not have to close by their safety health person. At this time they are screening kids and anyone with any symptoms is not allowed to be in the facility. 8 children 3-5 with 2 staff Alyssa and Stephanie. There are 19 children enrolled at this time for the preschool and 5 enrolled in the EHS program that comes a few times a month. They are still having issues getting out of state from Indiana central registry which has been sent three times. Requested that Leighann contact central registry again to request them to follow up on it. Please call me with any questions.
