C	67.	All equipment and products used in child care facilities shall be used per manufacturer instructions. Manufacturer instructions/guidelines, including but not limited to Indoor/Outdoor equipment, Cribs, Sleepers/Sleep Sacks shall be on file.
Comments: All rooms inspected. Non-food health inspection completed. TA done for hot water temperature in bathroom. Handwashing sinks in the rooms tested within parameters. Director explained: staff turns on the hot water in the restrooms for children and directly supervises them. This is required until water temperature can be adjusted. Water temp must be between 60 and 120 degrees. Sanitizers checked. TA done for general sanitizer in 3/4 room, too strong. Licenser discussed with director use of sanitizer vs use of disinfectant. the labeled disinfectant measures at 200 PPM and should only be used for body fluids, and in the area used for diaper changing.		

69. Child Records Notes

Enrollment 25. 5 children's records check. All required documentation current and on file. New records obtained each year at enrollment period.

70. Staff/Volunteer Record Notes

New staff and updates checked on site. Requirements on file.

71. Staff Child Ratios and Supervision

3/4year old room ratios 2:7, 4/5 year old room 2:14 Supervision observed and in compliance.
