Comments/TA Provided:

Required unannounced visit completed this date. There are 16 (2-5) Karen, and Allison. Outside playing on the playground There are 2 children in infant classroom with Sarah. Measured the new classroom. The room measures 20.5x 11 = 225.5/35 = 6 children. They will need to take down the pack n plays when not in use or the room will only measure for 4 children. The pack n plays will be taken down when over 4 children are in the classroom. Heidi stated that most of the time that the 6 children would be good in this classroom except if they have a teacher that doesn't show up, or during nap time when they are trying to maintain ratios so that staff can go to lunch. Discussed that Heidi request a variance for these times and requested that she be specific on the variance request and use the new form so that parents can be notified. Heidi will submit this variance request to the Licensing Office. Verified staff records all information current and on file. Heidi did have one staff working on a variance for out of state central registry, however the results have been received. Things are going well, gave Heidi the information to contact me with any questions. Thank you!
