Comments/TA Provided:

This is a compliance monitoring visit to ensure that staff are completely supervised by a fully qualified staff person while awaiting qualifications to be completed and while they are working under a variance on file. At the time of the visit it is observed that Dani is watching the infants in the living room along with Denise who is on the porch trying to wrangle children in from water play time. Dani is currently working on a variance for out of state central registry but it appears that Denise is compliant and supervisor her while awaiting qualifications to be completed. There are a total of 8 children in attendance outside with Mysti at the time of the visit (6 - 3 years old, 2 - 4 years old). There are a total of 2 children in attendance at the time of the visit with Denise and Dani (2 - infants). The facility is compliant at the time of the visit, but TA to continue supervision was given so that children are not ever left with unqualified staff members. Reviewed the requirements for the provisional license with Denise at the time of the visit.
