Comments/TA Provided:

This is the facilities annual facility visit. There are two staff in attendance at the time of the visit with a total of 13 children (1 - infant, 3 - 1 years old, 2 - 2 years old, 4 - 3 years old, 3 - 4 years old). At the time of the visit the infant is in the play pen and swaddled without a physicians statement on file. Discussed swaddling with the director and with the staff in attendance. The infant was removed from the swaddle immediately and TA was given to all staff about the safety and security for infant sleep. The staff working at the time of the visit include Denise and Misty. Danielle was working but was leaving at the time of the visit. The children were moved to the living room with the rest of the children as soon as they were done napping and staff to child ratios were maintained. TA - please remember to periodically check on all children in different rooms during nap time to ensure safety. Discussed the ew updated licensing rule tool with provider and advised to reach out to child care licensing with any questions or concerns. Updated staff summary and reviewed staff qualifications.
