Comments/TA Provided:

This visit was completed via zoom. Stephanie approved adding her cell phone to the contact information for her. Health and fire are current until 8/2021. Discussed training for her staff. They do most of it in the summer while they are not in session. Discussed what hours are needed. Staff is the same as it was in the fall except one person is leaving in the near future and a new person will be hired. Observed singing, stories, positive interactions between staff and children as Stephanie went from room to room. All classes had 9 children and 2 staff. The groups were 2-three year olds, 4-5 yr olds, and kindergarten. The rooms were all well done and very welcoming with appropriate activities for the children. This program has flourished quickly. Great Job Stephanie and staff! Call, text or email with any questions.
