Comments/TA Provided:

This is a follow up to have an unannounced with children present. The required unannounced should have been completed during the COVID Pandemic when this facility closed. There are 5 children present. (2-3 yr olds, 2-4 yr olds, 1-5 yr olds). They were using the restroom and washing hands upon arrival. This was well done with appropriate distancing. Nice routine. They then went to snack time. Well organized. This is shortly after the renewal visit so no record checks.
