Phone: 307-514-0199

Address: 1823 E. 17th St

City: Cheyenne

Facility Type: ☐ FCCH ☐ FCCC ☒ CCC

Comments/TA Provided:

Accompanied by Supervisor Hasperhoven. Fire and health are current until December 2020. FA/CPR is current and documented. Checked the playground. Two pieces of equipment need to be relocated to provide 6 feet of fall zone around the structures. Also need to rake the resilient surface to fall zones regularly. This playground has improved greatly under the new management of the facility. Plenty of space for children to run and play with nice shade. Licensing will research the geo dome. Ratios: Marissa had 8 children. 1-1 yr old, 4-2 yr olds, 2-3 yr olds and 1-4 yr old in the downstairs area to the left. There was one infant sleeping in the area to the right downstairs. Jessica Harms had 1-1 yr old, 2-2 yr olds, 2-3 yr olds, and 3-4 yr olds. She also had the sleeping infant in her care for a total of 9. TA was provided regarding supervision as Jessica was leaving her group to check on the infant, open the door, etc. TA was also provided regarding the cooking area. There is a staff person who leaves their group to cook the meals. Supervision is to be at all times. Discussed a possible third person to assist with those duties. Reviewed the staff records. There were no new staff and the qualifications of present staff were current. TA provided regarding the nap time requirements. Also suggested that a pak n play be moved to the preschool area for the infant to sleep in so that all of the children have direct supervision at all times.
