Comments/TA Provided:

Conducted the facility visit virtual via zoom. There are 6 children in attendance at the time of the visit with 2 staff members, Letisha, Kerina (3-infants, 3 - 1 years old) and the two other children at the facility are the Letisha and Kerina's personal children. The play room is being used by the older children while the living room areas is being used so that the staff can create a safe play space for the younger infants and toddlers at the facility. Licensor verified that the facility license, emergency numbers, evacuation route, and attendance are all current and posted at the facility. TA - Discussed what training is needed for director and staff at the facility. Provider states that her and Kerina are registered under her facility as staff but that her and the previous licensor were going to work together to ensure all training for the first year was completed, turned, in and credited. Licensor will review stars training and asked that provider please send over a copy of the missing CPR/FA card for Kerina.
