Certificate #: 017133

Phone: 307-337-1323

Address: 349 N.Walsh Dr.

City: Casper

Facility Type:  FCCH  FCCC  CCC

Comments/TA Provided:

Facility visit to measure new equipment and surfacing. There is not enough room for both pieces of equipment so the slide equipment will be removed until more surfacing is purchased. The surfacing tiles needs to be moved around the rock wall so that it has 6.5 foot of surfacing all the way around the equipment. If you are going to share use zone between the two pieces of equipment you will need to have 9 foot between the 2 pieces. Once you have moved the equipment and surfacing to meet requirements please send me verification so that we can approve use. The explorer room was measured as they are possibly considering moving the infants into this room so that there is a little more space. The room measures  $11 \times 35.75 + 7 \times 5 = 8.5$  children with 8 cribs standing. The cribs will need to be placed 8 feet apart. There are 8 infants in classroom 1 with Angel and Gabby There are 3 children 2 infants, and 1 1 yr old with Honesty in classroom 2. Explorer room- there are 10 children 18 mos- 2 yrs with Rebecca and Savannah 7 children in upstairs classroom ages 4-5 with Anna 6 children upstairs with Hannah 1 2 yr old and 5 3 yr olds. Discussed infant room expansion and staff changes in this room. They will start installing cameras in the facility next week. Discussed that it will need to be put in policy and that they could just post that camera's are in use. Please call me with any questions. Thank you!
