Comments/TA Provided:

Unannounced visit completed on this date. Received updated staff list, licenser will email Norman a list of items that will be needed for renewal. Classroom looks great, no hazards or violations observed. Did a walk through of the playground, some rubber mulch has been added but it is not quite compliant at this time due to the surfacing not extending to the 6 foot use zones (pre-school is not using equipment at this time until it's compliant).
