Comments/TA Provided:

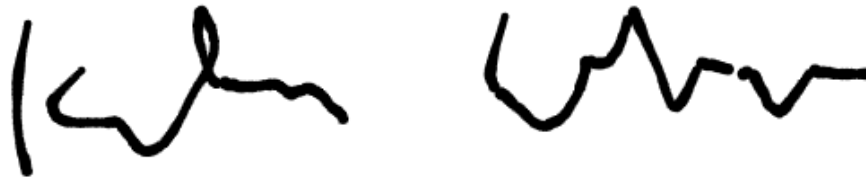

Facility visit to look at new playground equipment. Kiley doesn't have the manufacturer's instructions. I am going to research it and see if I can find them for the step 2 equipment. If I am unable to find the instructions we will inspect to the playground manual. At this time using the playground manual the equipment does not have enough use zone/surfacing at this time. They need 12 feet to the front and 12 feet to the back of the swings, and 7 feet for the slide. I will see what I can come up with today and let you know prior to school starting on Monday. Please don't allow children to play on it until the time that it can be inspected and approved. Please let me know if you have any questions. Thank you!
