Comments/TA Provided:

6 children present, 2-4, 3-2, 1-1 year old. There is a new dog in the home, his rabies vaccination documentation was provided to the Licensor. Macey a border collie cross nipped the Licensor's right upper calf, in the child care room after Julie walked out of the room. The dog did not leave a mark. Macey must be separated from the children at all times. The children were napping when the Licensor arrived, and awoke during the visit. Julie joined the Cowboy Conf, last weekend so she has quite a few training hours completed. The Licensor recommended Julie run the Central Registries after her April renewal so they are not needed in the summer next year. Julie is still taking children's temps they arrive in the morning. The Licensor recommending checking temps after nap time also, if there are any symptoms. Checked the restroom the children use.
