C	67.	All equipment and products used in child care facilities shall be used per manufacturer instructions. Manufacturer instructions/guidelines, including but not limited to Indoor/Outdoor equipment, Cribs, Sleepers/Sleep Sacks shall be on file.

Comments:

Absolutely love how you are doing attendance records and centers with the children during the visit. The space is very friendly and inviting and safe for children and staff. City of Green River Business License is posted and current exp. 4/1/2020 There are 14 children in attendance during the time of the visit with 4 staff. (All children are 4/5 years old) Received the following required documents during the visit: request for recertification, renewal fee, sanitation inspection, fire inspection, staff summary, staff training summaries, board of directors. A list of children's allergies and medical needs are in the staff cupboard and all staff have permission and are encouraged to have knowledge of those child needs. The staff and director are well organized and go above and beyond when working with children during the visit.

69. Child Records Notes

Documentation of Child Record Review is attached in the required renewal documents. Children's records are all compliant. The facility does not transport so they do not need transportation permission slips on file.

70. Staff/Volunteer Record Notes

Director organization and presentation of staff records is impeccable. All staff records are compliant, complete, organized, and current. Will review staff trainings needed for renewal.

71. Staff Child Ratios and Supervision

All in compliance at the time of the visit. The work that the staff and the children are doing during the visit is extraordinary and wonderful.
