Comments/TA Provided:

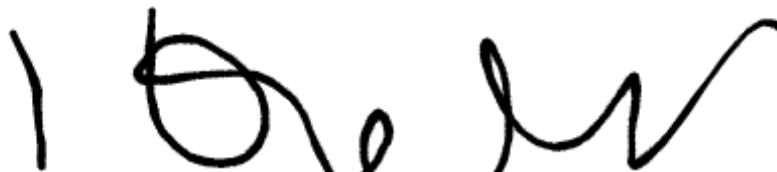

There is one child in attendance at the time of the visit with one staff person, Dorie (2 - years old). There are currently a total of 5 children enrolled at the facility but some of them are part time and some of them are full time. The provider has some injuries and illness that she is working through so has been going to doctor daily and has Michelle step in to help watch the children in care when she is away. Michelle is fully qualified at the time of the visit. Discussed staff qualifications and updating qualifications for other staff.
