Comments/TA Provided:

Virtual monitoring visit done to check up on the observed violations of 11/4. Reviewed the list of recent staff to verify their records. There is still a pending out of state C.R. on 1 staff. Viewed the infant and Waddlers room for no blankets in the beds. Tight fitting sheets are in the pack and plays. There were 4 infants in the baby room with 1 staff and 4 in the Waddler's room with 1 staff. 1 child in the waddlers room is an infant. The sign stating no blankets in the baby beds had been taken down when it got wet from the sanitizing fogger. The sign was replaced during the call. Baillie reported the 3 year old classroom had been closed on Friday due to a staff with Covid. She said she had reported that to Licensor Michelle Tucker. Staff, and school age children are wearing masks in the facility. No corrections needed.
