Comments/TA Provided:

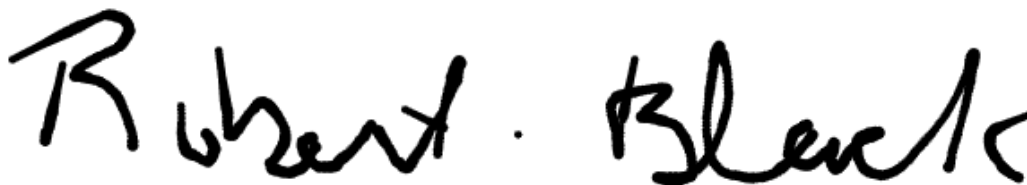

11 children present, 1-infant, 3-1 year olds, 3- 3 year olds, 2- 4 year olds, 2- 5 year olds. Two staff present. Lunch today was chicken nuggets, green beans and apples. Sanitation inspection completed during the visit. Bleach concentrations for the kitchen and toys need to be 50-100ppm, Changing table concentration is 100-200ppm. Roberta is using disinfecting wipes on the changing table currently. The Licensor will check with Sanitation to see if the wipes are approved. An infant has been sleeping on the top level of the home there is not a second exit from that level. Licensing will check with Fire to see if this is allowed. Discussed keeping the pack and play away from curtains or anything the baby/child can reach and pull into the pack and play. The Licensor will discuss with Supervisor Tucker the multi-level use and determine if a variance is required.
