Unannounced visit conducted on this day. Children were in their separated classrooms doing colors, numbers and letters and the other classroom was building with playdoh. Walkthrough of indoor and outdoor of facility completed. Licensor noticed a rock wall climber out in the playground which will not be able to be used due to not having any surfacing for fall height underneath. Rebecca reported would just get rid of it. Licensor suggested contacting grant money contact personnel to see if she could add those funds to her grant money. Rebecca thought that was a good idea. Licensor informed Rebecca that the climber needed 6 feet of surfacing all around the climber and 9 inches of surfacing. Licensor suggested to Rebecca to look at manufactures manual to see what they recommended for surfacing. Playground does have pea gravel but it is not 9 inches, Rebecca said she could get another load of pea gravel to get the 9 inches and it would need to be raked on a daily basis to ensure the 9 inches is met for surfacing. Discussed hiring new staff and Rebecca reported she has some interviews that are scheduled. Ratios: classroom 1: 2-3yo and 2-4yo with Rebecca classroom 2: 3-4yo with Brittney
