Unannounced visit completed this date. Discussed that KD had a dog bite. At this time they are taking out on the side of the house on a leash and keep the dog in the kennel during the day. Discussed the injury report process and that since a child did see the doctor to please contact licensing and send me an injury report form. Requested and injury report form from this incident. Looked at rule and discussed that if metro, or the vet would write her a statement that the dog wasn't showing aggressive behavior that the dog possibly wouldn't have to be locked in the kennel or kept away from daycare children. KD is still looking at getting married and will be moving the childcare it is just a slower process than originally planned. Discussed visitors to the home and that a visitor can be in the home no more than 24 hours and must be directly supervised at all times. There are 5 children present at the time of the visit. There are 8 children enrolled at this time. Please call me with any questions. Thank you!
