Comments/TA Provided:

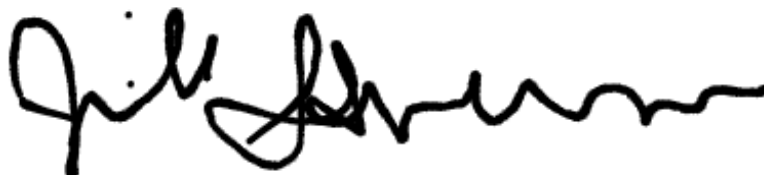

Inside and outside areas inspected. Director and classroom staff present. No children present. Ratios have been running 2:9 all year, age range 3 to 5 years of age. Playground and extra outside space inspected. Playground equipment in good shape. Center is considering resilient surface change. Currently woodchips are in the equipment use zones. Depth of surface is sufficient, use zone is surrounded by gravel which extends up to sidewalk that surrounds the playground and is used for trike riding. Center installed a barrier to ensure gravel stays level with the sidewalk edge. New wood chips or layer of pea gravel is being considered for use zone. Licensor discussed options with director and either will be acceptable.
