Comments:

Facility Inspection completed via zoom with Lisa and Dawn. Licenser was able to view facility, staff/child ratios, and review records during this inspection. Discussed renewal and that fire would potentially not be doing inspections so could potentially look at doing a provisional license if all other renewal requirements have been met. Gave Lisa the information that I would send her a detailed list of what was needed to complete the renewal of the license and that all information would need to be complete and received prior to the expiration of the license. They did add a triangular piece of equipment to the toddler side of the playground. During the inspection we looked at the manufacturers specifications and the equipment is over the 24 inch fall height. TA was given. Equipment removed until it can be placed on surfacing. Lisa will contact me once they have surfacing. Discussed adding equipment and any time that they add anything over the fall height of 24 inches it needs to be approved by Licensing prior to use.

69. Child Records Notes

They have 44 children enrolled at this time. They are getting new enrollment records for all children every year. Reviewed children's records, all information is current and on file.

70. Staff/Volunteer Record Notes

They have 3 new staff, reviewed records for Kynzie, Deja, and Stevie. Reminded Lisa to assure that Deja is directly supervised at all times until the time that her out of state central registry and Pre-Service training has been completed. Discussed staff requirements and to assure that information is updated prior to it's expiration such as central registry and sex offender, and that all training is met within the required time frames.

71. Staff Child Ratios and Supervision

There are 11 children with Debbie, Kristine, and Deja. (3-6) There are 11 children with Betsy, Lindsey, and Angela. (3-6) There are 8 children with Amy and Stevie (15 months+)
