Comments/TA Provided:

Director present with 3 staff and one therapist with a group of 7 children age range 3-4. Children were playing outside. Staff was supervising the children who were spread out on the playground using various pieces of equipment. Staff was in strategic positions so all the children could be seen and individual children could be assisted as needed. Staff does a great job of interacting with the children as a group and meeting the needs of individual children. Director discussed adding some shade structures to the playground. Licenser gave advice about use zones for larger pieces of equipment, such as the swing set, and how the shade structures could be positioned as to accommodate use zones for current pieces of equipment.
