Provider: _____

Certificate #: 002305

Phone: 307-265-2333

Address: 2200 Richard Street

City: Casper

Facility Type: ___ FCCH ___ FCCC X CCC

Comments/TA Provided:

This visit is the facilities annual facility visit. Tiffany is not available at the time of the visit but Jacky is present and was able to help complete the walkthrough and review any staff qualifications that were needed at the time of the visit. Reviewed staff qualifications not yet on file and received a TB assessment date for Morgan and also received a copy of current CPR/FA cards for Morgan. Discussed how central registry applications are taking an extended time to get completed and that the facility may want to file those early and get them submitted so they don't have to wait. There are a total of 11 children in attendance in the downstairs play area at the time of the visit with one staff person, Jacky (1 - 5 years old, 10 - 6 years old). The children are all resting and watching a movie at the time of the visit. Discussed how the attendance needs to be updated and current at all times and Jacky completed updating the attendance during the visit. There are 12 children in attendance in the upstairs room at the time of the visit with 2 staff persons, Sam and Morgan (3 - infants, 2 - 1 years old, 2 - 2 years old, 3 - 3 years old, 2 - 4/5 years old). The children are all resting and one child is headed to use the bathroom. Discussed how staff should walk over to the gate and observe that children safely make it to the bathroom and safely make it back to the classroom since they have to go through the gate. At the time of the visit a 4/5 year old child was observed leaving the classroom area through the gate and going to the restroom down the hall while staff were in the upstairs classroom.
