Required unannounced visit completed this date via facetime. The kids and staff are all outside playing. Whisper did add wood chips and a barrier around her playground equipment. There are 16 children and 3 staff present at the time of visit, They have 2 - 1 yr olds, 7 2 yr olds, 3 3 yr olds, 2 4-5's, and 3 5+. Staff present is Trina, Whisper, and Marcus. Shaylee went to Loaf N Jug and will be right back. There are no other new staff. Reminded Whisper that central registry is coming due and that her CPR/FA would expire in August. Trina was hired back in January 2020, staff records verified, all current and on file at the facility. Whisper is using her granddaughter as a youth trainee, and Shaylee is overseeing that. Reminded Whisper, that her granddaughter does not count in ratios, and can not act as staff, such as diaper changing, feeding etc. Verified attendance sheet, requested that they list the children individually as it would make it easier to see how many children were present in an emergency. Whisper showed me another sheet that they use and carry and they mark the children in when they come and go, and all children are listed out on this sheet. They are still screening and taking temps when children come to the childcare. They are also checking temps at lunch and after naps just to assure that they can catch anything that happens. Gave Whisper the information regarding the COVID webinar that they are having tomorrow night. Gave Whisper the information to contact with me any questions.
