Comments/TA Provided:

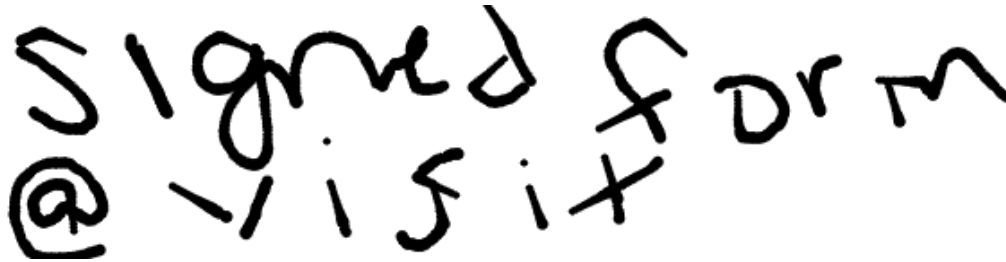

Facility changed a conference room into a room for care. They are using it for small groups for a couple hours each day. It measures 16x18 with one exit for 8 kids. Facility will fill out change request form to change their capacity. We also discussed the possibility of renting unused portions of the building to community members. We discussed that there needs to be a separation of sorts so children are not mingled with community members who are not part of the child care. We discussed keeping a log of non-child care people in the building, blocking access to child care, and separate side entrances for the community programs as possible solutions.
