Comments/TA Provided:

Monitoring visit conducted. Miss Gail and new staff J.R. have 10 preschool children. The children were playing on the big playground this afternoon because a storage box had been disassembled on the preschool playground and still needed to be picked up. If the preschool children will be using the big playground the surfacing depth needs to be restored to 6", in the 6' use zones around the equipment that is higher than 24". Please submit a variance request for J.R. while you are waiting for her out of state Central Registries to be returned.
