Provider: _____

Certificate #: 002436 Phone: 307-332-5508

Address: 100 PUSHROOT CT.

City: Lander

Facility Type: ___ FCCH ___ FCCC X CCC

Comments/TA Provided:

Three classrooms inspected. Classroom #1 had children and staff present. Children had just returned from a field trip to a farm. Licensor asked staff about attendance for the field trip. The computer system is not available so teacher took a picture on her cell phone of the attendance for the day. Children were observed and checked off upon arrival, departure and relocation back at the facility. Staff also verifies children during the field trip. Attendance verification done multiple times during the field trip. More than is required by rule. Good practices in place for ensuring all children are accounted for at all time when off site. Playground was observed. Pea gravel resilient surface is well maintained. Equipment in good shape, attachments checked on the swings, very little wear is present in the swings with ring attachments. The other swings have new chain and hardware. Other playground equipment checked, No issues. Secondary playground is blocked off due to construction in the area. Over all good inspection with no noted violations.
