С	67.	All equipment and products used in child care facilities shall be used per manufacturer instructions. Manufacturer instructions/guidelines, including but not limited to Indoor/Outdoor equipment, Cribs, Sleepers/Sleep Sacks shall be on file.				

Comments:

Facility Inspection for renewal completed on this date. Discussed children's records, I will send a sample set of children's records as Yvonne is getting ready to update records. Yvonne is getting renewal information ready, still need policy statements, menu, training, application for recertification, fees, fire and health inspections to complete renewal. Please let me know if you have any questions.

69. Child Records Notes

They have 30 children enrolled at this time. Discussed attendance sheets with Yvonne, and requested that she separate the children on the attendance sheet as for instance, she has two children in one slot but only one of the children is present at the facility and there is no way to decipher that. Yvonne will separate the children so that they are easily able to be seen if they are here or not here.

70. Staff/Volunteer Record Notes

Verified staff records, all information on file except for the out-of-state central registry for Sarels Reyna. She was not present and working at the facility during the visit. Explained to Yvonne, that she could not work until either an approved variance was on file or the results from the Montana Central Registry. The variance request was received during the visit and will be submitted for a decision. The staff member did come in to fill out the paperwork and took it to get notarized while I was at the facility. Discussed that Yvonne needs to watch the central registry screens and request those for any staff that has lived in other states in the previous 5 years prior to their hire date.

71. Staff Child Ratios and Supervision

Some of the classrooms were out of ratio as Yvonne was with the Licenser, when it was determined that Yvonne needed to be in staff/child ratio we moved out into the main classroom so that Yvonne could be in ratios. Children were moved so that all staff/child ratios were in compliance. Jessica - 3 infants, 1 1 yr old Payton - 7 children (2-3) Whitley - 5 children (1's) Karla/Yvonne - 11 children (3+) Also, another staff Stacey arrived while I was at the facility.
