	С	72.	Sufficient cold and hot storage equipment present for potentially hazardous food
C 74 Freezer food maintained in frozen condition at or helow 32 degrees	С	73.	Refrigerator food contents held at or below 41 degrees
74. Preezer 100d maintained in mozen condition at or below 32 degrees	С	74.	Freezer food maintained in frozen condition at or below 32 degrees

С	75.	Are potentially hazardous prepared foods held at or above 135 degrees.	
С	76.	Food is cooked to the proper internal temperatures	
С	77.	Beef roast 140	
С	78.	Steak/ chops /fish 145	
С	79.	Ground beef and pork 155	
С	80.	Poultry and stuffed meats/ all leftovers 165	
С	81.	In refrigerator 41 degrees F or lower	
С	82.	Under potable water @ 70 degrees F or lower	
С	83.	Microwave	
С	84.	Food protected from contamination	
		·	
С	85.	No unwrapped leftovers	
С	86.	Food storage (clean, covered, labeled) at least 6" above the floor	
С	87.	Cross-contamination prevention: least possible manual contact with clean & sanitized surfaces and utensils.	
С	88.	Food preparation and service surfaces are constructed with safe materials and are in good repair (corrosion resistant, cleanable, durable)	
С	89.	Food preparation and service surfaces are cleaned and sanitized	
С	90.	Adequate lighting, vent covers, wall-mounted fans, and similar equipment in good repair	
С	91.	Hair control for food prep practiced	
EQUIP	MENT	STORAGE, CLEANING & SANITIZING	
С	92.	All equipment and utensils for food preparation and service are cleaned & sanitized and stored 6" above floor level	
С	93.	Warewashing method: with a water temp reaching a minimum of 150 degrees.	
С	94.	3 compartment sink with sanitizing basin Air drying sanitizer strength:	
С	95.	Sanitizer is mixed at the proper strength (50-100ppm Chlorine/ 200ppm QuaternaryAmmonia/ or according to product label)	
С	96.	Single-service articles store 6" above floor level	
С	97.	No reuse of single-service articles	
С	98.	Toys are sanitized no less than weekly or more often if visibly soiled.	
PHYSI	PHYSICAL FACILITIES		
С	99.	Floors, floor coverings, walls, wall coverings, and ceilings in good repair and not soiled	
С	100.	Sufficient ventilation in all rooms	
С	101.	Lead-based paint does not exceed dust levels	
RESTR	оомѕ		
С	102.	Soap and paper towels are available in the restroom.	

С	103.	Hot water at the handwashing sink does not exceed 120 degrees F (minimum temp 60 degrees F)	
С	104.	Handwashing sinks are 24-36" in height and located in or adjacent to restrooms	
С	105.	A covered garbage receptacle is available in the restroom	
С	106.	A ratio of 1:4 potty training chairs is utilized for children who are potty training.	
DIAPE	R CHA	NGING AREAS	
С	107.	The diaper changing area is within 12 feet of the handwashing sink	
С	108.	Hand washing is done immediately before and after changing diapers	
С	109.	Changing pad good condition & clean	
С	110.	Sanitizer available in diaper changing area and used after every change (proper strength: 100-200 ppm Chlorine/ 200ppm quantaray ammonia/ or according to product label)	
С	111.	Proper disposal (covered garbage receptacle)	
LIQUI	D & S0	LID WASTE DISPOSAL	
С	112.	Public sewage system or DEQ approved system	
С	113.	Garbage storage covered, clean, lined, durable, cleanable and insect & rodent proof	
ANIMA	ANIMALS		
NA	114.	Excluded from food prep, dishwashing and dining areas (including dishes and litter boxes, etc.)	
NA	115.	Pet vaccination or psittacosis tests (for birds) current and available	
NA	116.	Only allowed animals (domestic dog, cat, ferret, ungulate, pet rabbit, pet rodent, aquarium fish, non-psittacine cage and aviary birds). No wild, aggressive or potentially harmful animals. No contact with ferrets, baby chicks, baby ducks (children under 5). No bats, raccoons, skunks and wild carnivores (including dead animals).	
PEST (CONTR	OL	
С	117.	Insect and rodent control measures in place	
С	118.	Approved methods: stick-um fly strips, electronic killing devices and other non-toxic methods or pesticides	
С	119.	Doors and windows effectively protect against all insects and rodents. Screen material less than 16 mesh to the inch	
HEALT	H REQ	UIREMENTS	
С	120.	No person with communicable disease present	
С	121.	Exclusion of ill staff and children as per rules	
С	122.	Policy for notifying parents of ill children	
С	123.	Policy for notifying parents and staff of exposure to a communicable disease	
С	124.	Plan for separation and supervision of child seriously or suspiciously ill with a communicable disease	
С	125.	Plan for separation of staff seriously or suspiciously ill with a communicable disease	
С	126.	Report communicable diseases to the public health office	

Comments:

Facility inspection completed on this date. Received FIRE and Sanitation inspections. Observed preschool class instruction and dismissal. Outdoor space checked. M-TH classes and Fridays are teacher Inservice only. No new staff within the last year.
