Address: 326 WARREN STREET

City: Thermopolis

Facility Type: ☐ FCCH ☐ FCCC ☒ CCC

Comments/TA Provided:

Rule book delivered with TA handbook, sample and checklist. Director Jill Van Heule present with one classroom staff and cook. 13 children age range 3 to 5. Supervision was observed, staff had good over all classroom management. They are skilled at moving to children or situations that need adult assistance or intervention. Children were engaged in child choice activities and center play. Staff pays attention to what the children are engaged in and supports positive interaction and social skills. Facility has added a large sand box with cover to playground. Old sand box is going to be a garden spot. Children were very eager to show off the plants they are growing inside for the garden. This a great way to connect the farm to table concept and help children understand where food comes from. The team at this center is very skilled in overall management of the children using positive methods that encourage good behavior and choices while modeling manners and social skills.
