

FACILITY VISIT

Facility Name: Busy Bumblebees

Date: 12/22/2020

Time: 07:45

Provider: _____

Certificate #: 000918

Phone: 307-267-7339

Address: 4925 Natrona Ave.

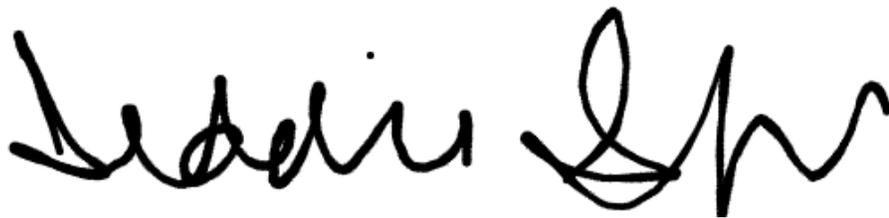

City: Mills

Facility Type: ___ FCCH ___ FCCC X CCC

Comments/TA Provided:

Facility visit to deliver CCL-301 re: health and sanitation, food service. CCL-301 was given to Shelly and discussed allegations with Shelly. Alyssa came in and allegations were discussed with her as well. While at the facility it was observed that the back door was locked while at the facility. This door needs to remain unlocked at all times during business hours. There is a new slide in the kitchen area that is over the height of 24 inches. This slide needs to be removed. While at the facility it was observed that the staff is having to go to the front door to unlock it and let children in, which leaves the classroom that they are in unsupervised. The check in needs to be either moved to the front so that children can be supervised or a staff that is not working in ratio needs to answer the door so that they are not being removed from staff/child ratios. The attendance sheet is not current, there are three children checked in that are not at the facility. The mom checked the children in and then left and took them with her. Shelley stated that mom was running to the store. Discussed that the attendance needed to be current at all times and that children that are not present at the facility should not be checked in. There is no menu present at the facility, parents need to know what is being fed daily. Suggested using a white board if they are deviating from the menu so that parents have accurate food that their child is being fed. While at the facility it was observed that a bassinet was being shared with children and not being cleaned in between uses. Discussed cleaning equipment between children. It was observed that there was an infant sleeping in a bouncer while at the facility. Discussed this with staff, the infant was moved while at the facility. Carmen called and spoke to me regarding the allegations while I was at the facility. I discussed with her that I will get clarification from the Fire Department regarding the back door being unlocked if children are not back there. CCL-301 observed violations was given to Alyssa.
