Out to monitor compliance. The facility is getting ready for lunch. 8 children with Alyssa 1 infant, 1 1 year old, 5 2 yr Olds, 1 3 yr old. Savannah has 8 children. 2 infants, 2 1 yr Olds, 2 2 yr Olds, 2 3 yr Olds. Things are going good verified what was being served is listed on the whiteboard. Discussed attendance. Kids need to be checked out when leaving for school so that attendance is current at all times. There were 3 children on the attendance sheet that were not at the facility. This was fixed during the facility visit. Discussed that staff needs to be verifying the attendance to make sure that the parents are signing in/out. They have an infant that has a doctor's note to elevate the crib 30 to 40-degree angle. Gave information that they needed to contact the physician who wrote the order and get clarification as to how they need to elevate the crib. Alyssa called Carmen while we were at the facility, and gave me the information that I should be talking to her and not to Shelley. I explained that they had Shelley listed as the assistant with me. So if they would like Alyssa to be the assistant this needs to be clarified. Was able to observe children being checked in, staff is able to attend to and supervise their children and still help with the children coming in and leaving the facility. Discussed baby equipment, it may be used but immediately after an infant falls asleep they must be moved to a flat hard surface. CCL-300 and CCL-301 for current attendance emailed this date requesting compliance by 1/20/2021.
