Comments/TA Provided:

Unannounced visit conducted on this date. The children were napping at the time of visit. Discussed staff qualifications, policy, hiring practices, employee handbook, capacity, training requirements, diaper changing practices and licensing rules. There were 13 children present at time of visit. TA was given for the cribs/cots and the required spacing needed. We discussed a way to move the high chairs and table to allow more spacing for the cribs and cots. Discussed direct supervision and variance requirements. Corianne is still trying to get moved into a center and needs to do more work to the building. Gave her the information to contact me with questions or assistance needed for the move. Discussed new rules and ECARES with Corianne. She is working with Stoney for her ECARES questions. Discussed training, gave Corianne the information about the required training, early learning standards, licensing rules, and staff orientation. Discussed that staff orientation forms and evaluation forms can be found on the STARS website. Will get clarification about warming up food and pre-packaged snacks and sanitation inspection. Corianne worked with Dept. of Ag for new facility. Please call me with any questions. Thank you!
